

Ministerial Statement

To The Senate

By

Senator H. Anthony Richardson, JP

Bermuda College Graduates – Class of 2020

Wednesday, June 24th, 2020

Madam President,

This morning I am pleased to share information about the 2020 graduation at the Bermuda College on May 28 with my Senate colleagues and the general public, to provide details of the inimitable Class of 2020, and the unique ways in which their success was celebrated by the College. I provided general congratulatory remarks at the last Senate sitting and I will be more specific today.

Madam President,

The Bermuda College made the difficult decision to cancel its traditional Commencement Ceremony in March as a result of the Coronavirus pandemic and the growing concerns about the spread of the disease, locally. Commencement represents the culmination and highlight of the academic year for most colleges and universities – and certainly Bermuda College was no different. Notice of the cancellation was sent to the campus community by College President, Dr. Duranda Greene, with the promise that graduates would receive their graduation diplomas on

May 28th; and they would be celebrated in a more traditional manner at a future event.

Madam President,

An ad hoc committee was assembled to organize a series of celebratory events for the Class of 2020. These included recorded congratulatory messages from the Hon. Premier David Burt; The Hon. Minister of Education Diallo Rabain; Board Chair, Mr. Peter Sousa; Dr. Greene, and the VP of Academic & Student Affairs Dr. Phyllis Curtis-Tweed. Congratulatory messages from both faculty and support staff were compiled into a celebratory video clip, and Mr. Shane Rogers, a graduate from the Associate of Applied Science Hospitality Management programme, delivered the virtual Graduate Student address. All of these were made available for view on the College's website and Facebook and Instagram social media platforms.

In addition, **Madam President**, graduates were provided the opportunity to share highlights of their College experience, thank family, friends and College supporters, and provide parting advice in short video interviews which were then uploaded to the website and social media. Outstanding graduates have been featured on the online radio programme, "The Daily Hour"; and graduates also enjoyed a virtual Commencement party with DJ IBreeze. On Saturday, June 6th, graduates returned to the campus to have graduation photos taken, as part of the commemorative events.

Madam President,

By far, the absolute highlight to this adaptive event was the drive-through, curb-side collection of associate degrees, diplomas and certificates by the proud graduates of the College. I can attest to the enthusiasm of Dr. Greene and her team since I drive

by during the presentations! A total of 107 graduates received graduation packets from Dr. Greene containing a congratulatory personalized letter, their cap and gown, and an academic parchment to the cheers and car toots of family members and friends.

Notwithstanding the challenges they faced, **Madam President**, I am proud to note that 53% of the Class of 2020 graduated with honours, earning either merit (GPA 3.0 – 3.49) or distinction (GPA 3.5 – 4.0) status. The Associate of Arts (Business Administration) programme produced the largest graduating group with 32 graduates. **Madam President**, please indulge me at this time to share the number of graduates for other programmes, represented on the graduation list, which included:

Division of Arts & Science

- The Associate of Arts (Art & Design) – **5 graduates**;
- Associate of Arts – **13**;
- Associate of Arts (Early Childhood Education) – **3**;

Madam President,

I would also like to take this opportunity to congratulate the 20 students who graduated with their Bachelors and Masters degrees through the partnerships Bermuda College has with Mount Saint Vincent and Miami University, respectively. There were 16 Mount St. Vincent students who completed their Bachelor of Business Administration in Association with Bermuda College and 4 students completed their Masters in Special Education with Miami University.

Unfortunately, **Madam President**, the 11 nursing students of this remarkable Class of 2020 were unable to finish their studies because the clinical component of their graduation requirements could not be completed as a result of the pandemic. It is planned for this final portion to be completed in the Fall.

Madam President,

I ask that you and this Honourable Chamber join me in congratulating the unique and resilient Bermuda College graduates of the Class of 2020, who discovered and followed their path at the Bermuda College!

Thank you, Madam President.
